

dingz

Presentation

Infinitely intelligent & extremely simple

Energy optimization

We develop products to optimize the use of energy in order to participate in the protection of the environment and ecology.

Bilingual & *Swiss Design*

100% of our employees are bilingual and our roots in the canton of Fribourg and in Switzerland reflect our values.

Quality

We strive to differentiate ourselves not only by the versatility of our products but also by their very high quality.

Confort et automation

We provide our customers with added value in terms of user comfort but also by improving the daily life of our customers by automating their tasks.

70 appartments - Saint-Gall

41 appartments - Huttlerpark

6 semi-detached villas – Courroux

Basic functionalities

- 1  Light - dimmer
- 2  thermostat
- M2  blinds & slats
-  motion detector
-  ventilation

The dingz has 4 dimmers or 2 blinds.

The devices are directly functional without configuration

Motion detector

Light switch according to the outside brightness via the motion detector

Local configuration

Create your own local configuration via the app without wifi
The connection is made via the dingz network (Access Point)

Local configuration

Without configuration

Exemple for lights

With configuration

Exemple for blinds

The buttons are adjustable according to the outputs

Wifi configuration

Control a multitude of devices like Philips Hue and Sonos through the wifi access point.

Communicate between each dingz

Compatibility with vocal interfaces

Connect features like voice control and scenes from Google Home /
Alexa / Homekit with Siri

Compatibles systems

Q3/4 2022

Q3/4 2022

Via MyStrom

dingz for all your things

Combines 4 functions in one device

A complete dingz installation is close to a conventional installation in terms of prices.

Installation time as easy as a standard switch

Simple configuration with step-by-step guide

Long-term investment due to scalable technology without changing the hardware

Compatibility with open interfaces

Always operational, even in case of network failure thanks to standard cabling

Colors

Existing colors of the switches compatible with the frames of Feller, Hager and ABB

1

Panier

Dim. pictos/texte	petite
Quantité	14
Frais de port	7.50 CHF
Montant d'û	76.70 CHF

Custom engraved buttons configuration available with
parlor.dingz.ch

Upcoming features

Remote access / Presence simulation / Weather station

Energy saving

- PIR (motion detector and light measurement)
- Dimming (10-50%)

- Remote programming and management (heating)
- Weather station (proactive blind and light management)
- No tenant infrastructure (server)

- Timer on the buttons for automatic switch OFF
- General switch OFF
- dingz Consumption (0.9W)

Automation via scenes

Take advantage of the dingz to manage the brightness of all your lamps and create personalized scenes

To launch a movie night, imagine closing the blinds, dimming the lights and launching your TV with a single clic

dingz

Backup and reset

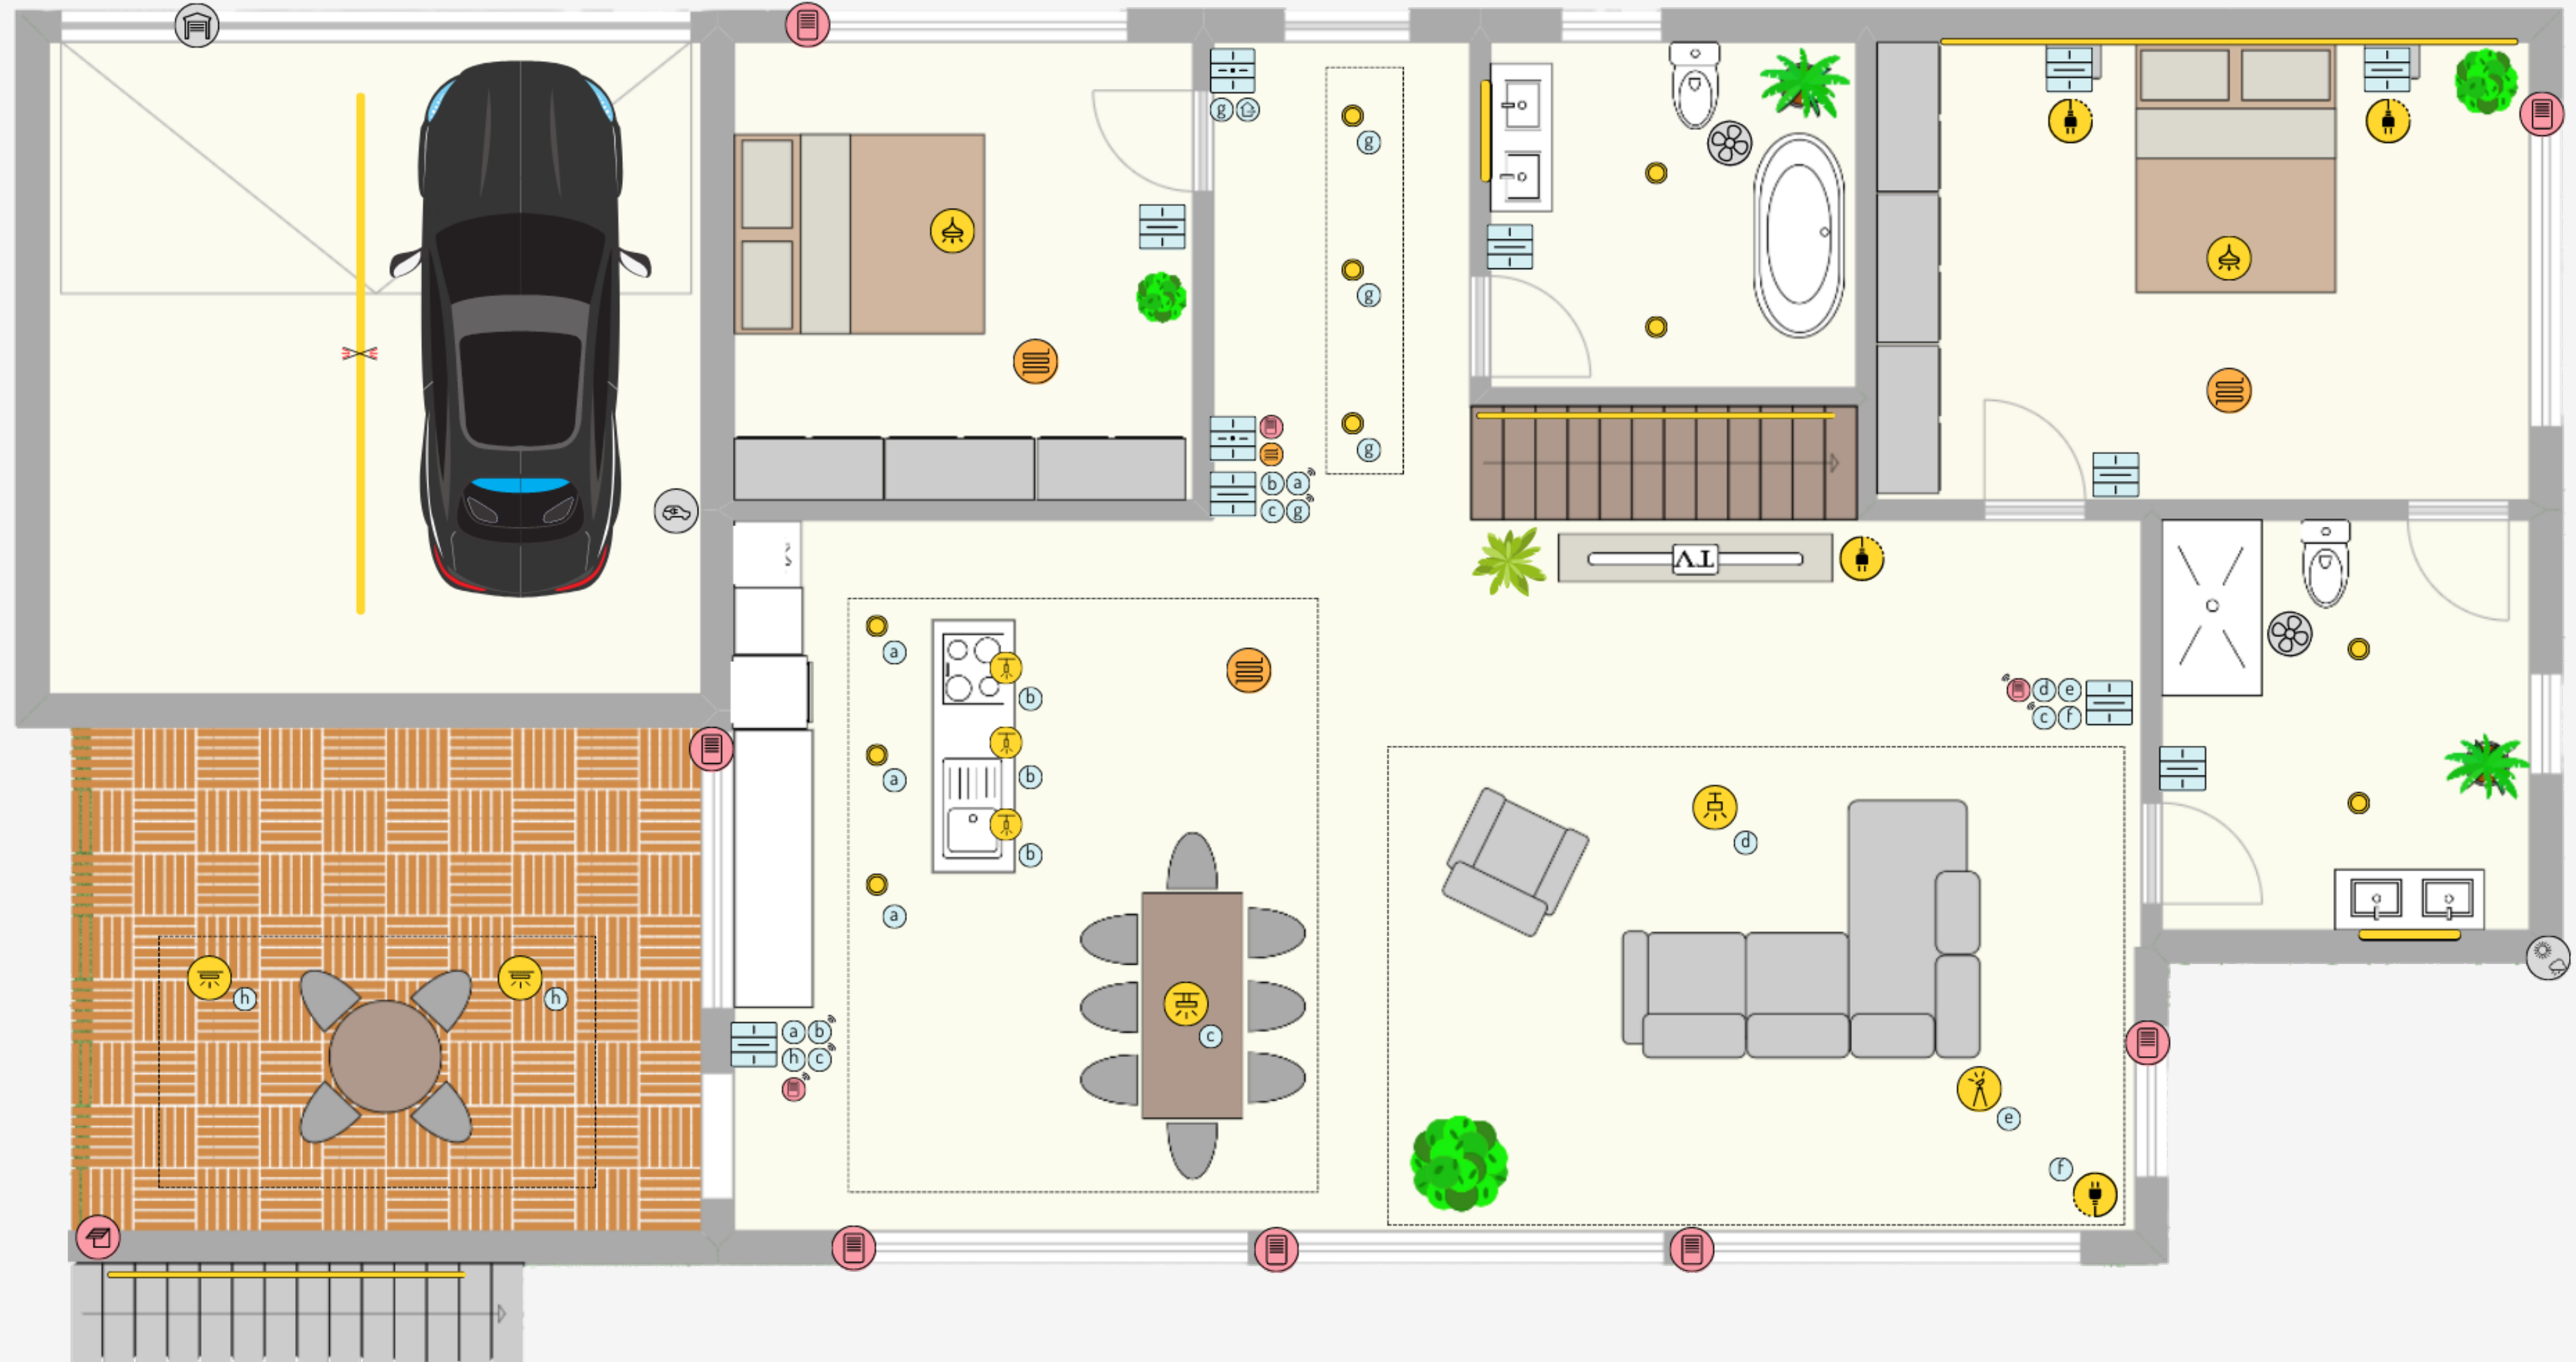

In case of moving or change of tenant, the dingz can be reset very quickly

The created configuration can also be saved and uploaded later

Planification

Example of a technical plan

Quantity observed per apartment

Type of apartment	dingz Qty
1.5	2-3
2.5	5-7
3.5	8-10
4.5	10-12
5.5	12-14
6.5	17-19
